computer science and economics, Winter 2005: 37-47
Kelly, Henry
education via games, simulations, and entertainment services,
Summer 2005: 33-40
Kent, Jennifer
China, impact of personal wealth on environment,
Winter 2005: 90-92
Kleiman, Mark
drug control policy, Summer 2004: 35-37;
Letters, Fall 2004: 5-7

Koplan, Jeffery
childhood obesity, prevention, Spring 2005: 57-64; *Letters*, Summer 2005: 13-14
Korea, North
arms control, future policy, Spring 2005: 87-90
Koski, Greg
funding, academic/industrial conflicts of interest, Winter 2005: 48-54; *Letters*, Spring 2005: 7-10
Kraak, Vivica
childhood obesity, prevention, Spring 2005: 57-64; *Letters*, Summer 2005: 13-14

Lal, Bhavya
developing countries, medical R&D, Fall 2004: 29-32; *Letters*, Winter 2005: 14-15
Lane, Neal
nanotechnology R&D funding, Summer 2005: 49-54
Lanouette, William
Oppenheimer, Robert, biography, Fall 2004: 92-95
Lave, Lester
electrical grid failure, with comparison to air transport, Summer 2004: 55-61; *Letters*, Fall 2004: 7-9
Law and law enforcement
see also Drug policy; Intellectual property; Legislation
alcohol abuse by minors, statistics, Winter 2005: 81-85
funding, academic/industrial conflicts of interest, Winter 2005: 48-54; *Letters*, Spring 2005: 7-10
nuclear waste disposal, Yucca Mountain project, Summer 2005: 20-21
patents, general, Summer 2004: 49-54; *Letters*, Fall 2004: 14
terrorism and civil liberties, Winter 2005: 86-90
terrorism, Senate committee debate on priorities, Summer 2005: 21-22
Leitenberg, Milton
terrorism, biological weapons, Spring 2005: 84-87
Levi, Michael
arms control, future policy, Spring 2005: 87-90
Levin, Richard
patents, general, Summer 2004: 4954; *Letters*, Fall 2004: 14
Lewis, Martin
China, impact of personal wealth on environment, Winter 2005: 90-92
Liebowitz, Stan
copyright, impacts of digitization, Spring 2005: 92-95
Liverman, Catharyn
childhood obesity, prevention, Spring 2005: 57-64; *Letters*, Summer 2005: 13-14
Logsdon, John
human space flight, Fall 2004: 21-22
Lorenzini, Paul
nuclear power and alternatives reconsidered, Spring 2005: 31-38; *Letters*, Summer 2005: 11-13

McCain, John
greenhouses gases, Winter 2005: 29-30
Marine resources
environmental protection, marine resources, Fall 2004: 37-44; *Letters*, Winter 2005: 5-6
tsunami warning system, Spring 2005: 19-20
Maritime transportation, *see* Ships and shipping
Mass media
see also Internet; Television
pregnancy prevention campaign, adolescents, Spring 2005: 65-70; *Letters*, Summer 2005: 18
primary/secondary education, Winter 2005: 69-75; *Letters*, Spring 2005: 14-15
public health, legal issues, Spring 2005: 71-77; *Letters*, Summer 2005: 16-18
Medical science
see also Biological weapons; Health care services; National Institutes of Health
childhood obesity, prevention, Spring 2005: 57-64; *Letters*, Summer 2005: 13-14
clinical trials for drugs, NIH/FDA, Fall 2004: 23-24
developing countries, medical R&D, Fall 2004: 29-32; *Letters*, Winter 2005: 14-15
drug approval process, Winter 2005: 63-68
genomics and public health, Spring 2005: 41-48; *Letters*, Summer 2005: 15-16
nanotechnology R&D funding, Summer 2005: 49-54
nanotechnology, environmental policy, Summer 2005: 65-71
population health initiatives and finding, Spring 2005: 39-41
public health, legal issues, Spring 2005: 71-77; *Letters*, Summer 2005: 16-18
R&D budget, FY 2006, Spring 2005: 16-18
stem cell legislation, House vote, Summer 2005: 19
syndromic surveillance in public health, Spring 2005: 49-56; *Letters*, Summer 2005: 8-11
terrorism, biological weapons, Spring 2005: 84-87
vaccine supplies, Winter 2005: 28-29
Meigs, Montgomery
appreciation, Winter 2005: 96
Mental health and illness
see also Drug policy
alcohol abuse by minors, statistics, Winter 2005: 81-85
Mexico
nanotechnology R&D, developing countries, Summer 2005: 57-64
Meyers, Norman
China, impact of personal wealth on environment, Winter 2005: 90-92
Military applications and policy
see Defense
Miller, Henry
agriculture, biotechnology, regulation, Winter 2005: 76-80; *Letters*, Spring 2005: 10-14
Mohr, O.H.
airport runway lighting, historical perspectives, Summer 2005: 96
Morgan, M. Granger
electrical grid failure, with comparison to air transport, Summer 2004: 55-61; *Letters*, Fall 2004: 7-9
personal data protection, Fall 2004: 83-90; *Letters*, Winter 2005: 12-14

Nanotechnology
developing countries, Summer 2005: 57-64

environmental policy, Summer 2005: 65-71
R&D funding,
Summer 2005: 49-54
Summer 2005: 55-56
National Aeronautics and Space Administration
Hubble Space Telescope, repair mission, Spring 2005: 19
human space flight, Fall 2004: 21-22
R&D budget, FY 2005, Fall 2004: 17-19
R&D budget, FY 2006, Spring 2005: 16-18
National Institute of Innovation (proposed)
industrial technology, general policy, Summer 2005: 72-78
National Institute of Standards and Technology
R&D budget, FY 2005, Winter 2005: 26-27
National Institutes of Health
clinical trials for drugs, NIH/FDA, Fall 2004: 23-24
foreign travel by NIH employees restricted, Fall 2004: 20
human space flight, Fall 2004: 21-22
R&D budget, FY 2005,
Fall 2004: 17-19
Winter 2005: 26-27
R&D budget, FY 2006, Spring 2005: 16-18
National Nanotechnology Initiative
nanotechnology R&D funding, Summer 2005: 49-54
National Oceanic and Atmospheric Administration
fisheries policy, Fall 2004: 45-52; *Letters*, Winter 2005: 10-12
R&D budget, FY 2005, Winter 2005: 26-27
National Research Council
airport runway lighting, historical perspectives,
Summer 2005: 96
National Science Foundation
primary/secondary science teachers, Fall 2004: 33-36
R&D budget, FY 2006, Spring 2005: 16-18
Nevada
nuclear waste disposal, Yucca Mountain project,
Summer 2005: 20-21
Newton, Elaine
personal data protection, Fall 2004: 83-90;
Letters, Winter 2005: 12-14
Nuclear power
